Wrong description, should be something like
"Enter or choose the URL to Firebird file here"

"Create New" at the wrong
place. Only existing databases
are expected.

Steps

1. Select database
2. Save and proceed

Welcome to the LibreOffice Database Wizard

Use the Database Wizard to create a new database, open an existing database file, or connect to a database stored on a server.

What do you want to do?

☒ Create a new database

Embedded database: HSQLDB Embedded

☐ Open an existing database file

Recently used: LO_Verein_2022

Open

☐ Connect to an existing database

Firebird External

Finish

Cancel

"External database: Firebird file"
Should be added at section "Create a new database"

Steps

1. Select database
2. Set up Writer Document or Spreadsheet connection
3. Save and proceed

Set up a connection to spreadsheets

Click 'Browse...' to select a LibreOffice spreadsheet or Microsoft Excel workbook. LibreOffice will open this file in read-only mode.

Location and file name

☐ Password required

Wrong description for spreadsheet appears if
choosing "Writer file"

And another bug appears if wizard
isn't started new for every action:
Browse button has been gone.
