

IsLgl demonstration

A. First element, first level

A.One. First element, second level

1.1.1. First element, third level **IsLgl override**

A.One.i.First. First element, fourth level

B. Second element, first level

B.One. Second element, second level

2.1.1. Second element, third level

LO has no comparable feature.

IsLgl demonstration

A) None levels are not overridden

A(Second level – defined with “none” for this level

1-1- First element, third level (IsLegal override)

A..i.First. The “A” and “I” are overridden by regular numbers when IsLegal is specified, but it only affects that one level.

LO has no comparable feature.
