

If there are some unescaped spaces LibreOffice doesn't automatically understand the link...
[http://support.mozilla.org/it/kb/Informazioni su Firefox Sync](http://support.mozilla.org/it/kb/Informazioni%20su%20Firefox%20Sync)

... so I create it with the menu (Insert → Hypertext link, or similar in english)

[link text](#)

but, in any case as you will see, LibreOffice escapes the spaces...
